

ProSystem fx® Tax – Individual

Take advantage of complete, digital 1040 tax preparation.

The ProSystem fx Tax – Individual module simplifies your tax preparation and review with detailed reports that simplify audit and planning. Increase your efficiency using these features:

- Computations between joint and separate filing statuses and complex depreciation calculations.
- Comprehensive and complex basis, passive activity and at-risk limitation processing.
- Inter-return navigation to access all family member returns, with an easy, one-step "Kiddie Tax" calculation.
- K-1 data imports from ProSystem fx Tax Fiduciary, S Corporation, and Partnership returns.
- Direct tax return population from Tax Notebook, the time-saving CCH online organizer.
- Comprehensive diagnostics that check for omissions and inconsistencies, with high-level suggestions to help you in the review and tax planning process.
- Detailed statements, offered historically by year, that include net operating loss, general business credits, contributions, carryforwards and carrybacks.
- Convenient source document look-alikes that speed data entry from W-2s, 1099s, and brokerage statements, including the ability to auto-fill these forms using data imported from ProSystem fx Scan.
- An easy-to-use wizard for importing or exporting foreign entity information, one at a time or in batches.

Coupled with ProSystem fx Tax, ProSystem fx Scan and PDFlyer™, AutoFlow Technology brings your firm the digital 1040 data import solution you've always imagined.

SOPHISTICATED STATE FEATURES

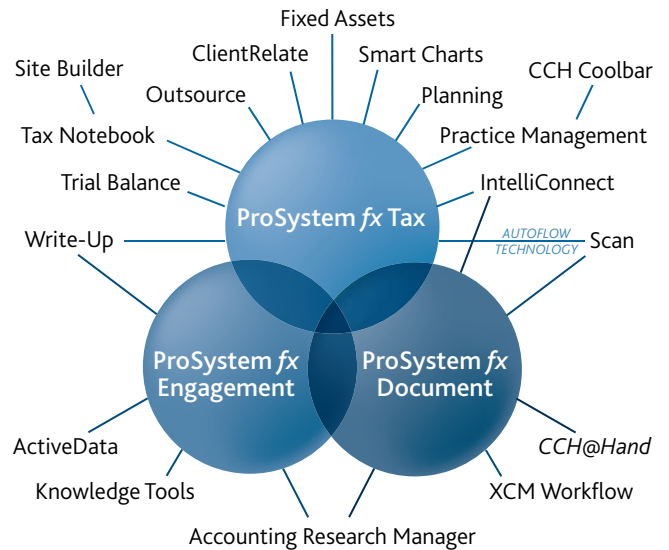

The ProSystem fx Tax Individual module also includes powerful state features, such as:

- Foreign assignment “tax equalization calculation” for all states.
- Simple one-step multiple-state processing.
- Flexible preparation of state-estimated tax vouchers and “underpayment of estimated tax penalty” computation.
- Efficient generation of amended returns, powers of attorney, and extensions for all states.

INTEGRATION DECREASES NON-BILLABLE HOURS

ProSystem fx Tax works seamlessly with ProSystem fx and other CCH solutions, as well as Microsoft® Office products, to help your firm:

- Complete tax returns through use of scanned documents from ProSystem fx Scan.
- Populate Schedules E, F and C through ProSystem fx Engagement.
- Automate the updating of project statuses in ProSystem fx Practice Management.
- Store a PDF or selected pages of a tax return in ProSystem fx Document.
- Transfer depreciation and asset disposition information to and from ProSystem fx Fixed Assets.
- Import financial statement data from ProSystem fx Write-Up, automatically populating Schedules C, E and F and Form 4835.
- Use context-sensitive links to IntelliConnect™ and CCH@Hand, as well as integration to ClientRelate™.
- Quickly populate Schedule D from GainsKeeper® Pro and BasisPro Cost Basis Analyzer from Wolters Kluwer Financial Services.
- Import and export data to Microsoft® Excel worksheets.

Increase productivity through CCH integration that lets you share data between applications so you can quickly access the information you need.
